October, 2019

To the Parents/Guardians and Students in the Eighth Grade Class:

We are pleased to invite you to the first of three transition programs designed to introduce the Class of 2024 to Pascack Valley High School, one of the premier public high schools in the state of New Jersey. On Thursday, November 14, 2019, we will host an "open house" intended to introduce our school, curriculum, athletic and co-curricular clubs to your family.

We will begin the evening with optional building tours at 5:45 PM. The program will begin at 6:30 PM in the auditorium where you will meet several school and district- level leaders. Together we will present an overview of Pascack Valley, with an emphasis on course offerings, programs, athletics and clubs available to you during your high school career.

Following the presentation, the "open house" portion of the evening will begin. Students and parents can visit any or all areas that interest them. Teachers, students, advisors and coaches will be available in all locations to assist and answer questions.

- Instructional Supervisors will be in the media center
- Clubs and activities – cafeteria
- Athletics – main gym

The second transition program is for students only. This will take place in May where we will highlight student life at Pascack Valley. The third and final program will be Freshman Orientation, held the day before school begins next fall, when our new freshman class will begin to make themselves at home in the building.

I look forward to seeing you on November 14 and welcoming you to Pascack Valley, your home high school.

Sincerely,

Thomas DeMaio, Principal
